St. James Episcopal Church and Parish House,
New London, Conn.

My dear Mrs. Mead,—

I am sending you a bunch of Hepatica which I gathered Saturday. It is one of our earliest wild flowers—It grows on a steep ledge near here. We will soon have many other flowers, I trust that you are in the best of health. Kindly excuse postal rain once. I am to read service at Killingworth Sunday. It is six miles away. Sincerely yours

H. S. Douglas—
